

# ELECTRIC INDUCTION COOKER

# FAST COOK

## One-piece stretching craft

One-piece molding for table-top, cylinder body R-angle process, seamless welding make clean without any sanitary dead corner.

## Electric induction heating

Evenly heating, effectively saving about 60% of fuel demand, isolated induction heating, no open flame, environmental protection and safer.

## Independent work

Each heating unit works separately at the same time without interfering with each other, increasing the efficiency of kitchen.

## Sectional control

Sectional control, intelligent timing, multi-level firepower selection, accurate to the required cooking temperature.

## Cabinets

Large-capacity storage cabinets, effective space planning, improve the cleanliness of the kitchen.

## Modularization

The whole machine is modular design, so installation and maintenance are simple.

## Know what you need and think what you want

ceramics glass

Waterproof sliding switch
