DESCRIPTION

These high-efficiency,heavy-duty, commercial induction cooktops are designed for use in commercial kitchens. They provide sensitive control for fast, high temperature cooking.

The induction cooktops come complete with power cords. The case is made from 201 stainless steel with a grade-A ceramic top. The ceramic top is easily cleaned with a mild cleaner.

The induction range is equipped with a variety of safety features including:

- Over-heat protection
- Small-article detection
- Pan auto-detection function
- Empty-pan shut-off

IMPORTANT

This appliance is intended for use with induciton-ready cookware.
All units requires a minimum clearance of four 4”(101.6mm) between all sides of the housing and any surface or obstacle.
Avoid ambient temperatures exceeding 50°C/122°F.

WARRANTY:

All models shown come with standard warranty against defects in materials and
